| 2.1 | Image Poses Used | 2 |
| 2.2 | Camera Parameters | 2 |
| 2.3 | Error Estimate | 2 |
| 3 | Discussion | 2 |
| 3.1 | arguments for which camera model best fits your situation and hence should be used | 2 |
| 3.2 | Compare Data with Gaussian | 2 |

1 Relevant Aspects of Experiment

1.1 Setup

1.1.1 Measurement Instruments and Tools

1.1.2 Image Description

1.2 Description of Parameters

1.3 Possible Problems or error sources that can disturb the calibration process

1.4 Uncertainty of Measurement

2 Observations and Data

2.1 Image Poses Used

2.2 Camera Parameters

2.3 Error Estimate

3 Discussion

3.1 arguments for which camera model best fits your situation and hence should be used

3.2 Compare Data with Gaussian
